4.5 stars out of 5 – [Romantic Times Book Reviews](#)

“Characters of all shapes, sizes and species abound in this new series from debut author Madison...How can you go wrong when your heroine is a werewolf with OCD? Madison tells her story with a lot of humor, and readers will be waiting with bated breath for her next story.”

Amy Phelps Book Review with [Parkersburg News and Sentinel](#) in West Virginia

“This is the start of a funny and touching new paranormal series, which may be dealing with supernatural creatures, but gives them all very human problems that make them very relatable. I loved this book and can’t wait to see what’s in store for Natalya next!”

4 out of 5 Stars [Genre Go Round Reviews – Harriet Klausner](#)

“...Filled with humor, *Coveted* is a fun romantic suburban romantic fantasy with a cast of neurotic and psychotic paranormals from several species (mindful of the movie *Gun Shy* taken place in the Burbs with otherworldly creatures). Nat is a terrific protagonist whose OCD brings uniqueness to the kick tail heroine.”

[4 out of 5 Stars – Seeing Night Reviews](#)

“Overall I enjoyed this new UF, it has a lot of humor but still keeps its focus on Natalya trying to recover from her past and growing up in a way. There are a lot [of] fun side characters, including Natalya’s BFF Abby who makes for some more drama in her life. Plus a lot of involvement with Natalya’s family and her friends in therapy, bring a lot of excitement to *Coveted*.”

[4 out of 5 Qwills – The Qwillery](#)

“The novel is well written and moves along at a steady pace. *Coveted* features quirky characters, werewolf battles, and a heroine with heart.”

[Wicked Lil Pixies](#) – Spaz Reviews

“From a hilarious first date with a necromancer janitor Quinton from work, to a truly entertaining support group for supernaturals with anxiety disorders, *Coveted* is truly charming and enjoyable novel.”

“This is a new to me author as well – and I really like her voice. She kept things interesting, always moving forward and never a dull moment. Her choice in heroine is unconventional to say the least, and one that I could appreciate.”

“When I first picked up the book, I thought – great another book about shifters. But I quickly changed my mind as I continued reading. I literally read this book from start to finish in one sitting.”
